References

#### **Demo Environment**

**Development Boards**: Jetson Nano

**SD (TF) card**: 64G

It is recommended to run the 4B and below parameter models

### **Model scale**

Model	Parameter
Orca Mini	3B

## **Got Orca Mini**

Using the pull command will automatically pull the model from the Ollama model library.

ollama pull orca-mini:3b

### **Use Orca Mini**

#### Run Orca Mini

If the system does not have a running model, the system will automatically pull the Orca Mini 1.1B model and run it.

ollama run orca-mini:3b

### Have a conversation

How to learn a programming language?

The response time is related to the hardware configuration, please be patient.

#### **End the conversation**

Use the Ctr1+d shortcut or /bye to end the conversation.
